Work Experience

Spellscaper

Feb 2022- Dec 2024

Programmer (Unreal Engine)

- Worked on an open-world multiplayer game from initial prototype to Beta.
- Contributed to gameplay, networking and optimization.
- Worked closely with game designer to implement and iterate on new systems / gameplay features

Piktiv

Feb 2021 - Feb 2022

System Developer (Unreal Engine)

- Implemented gameplay/systems in C++ and Blueprint
- Profiled and optimized in Unreal
- Worked on a game that is now published on Android and iOS

Attractive Interactive

Feb 2020 - Apr 2020

Programming Intern (Unity)

- Developed prototypes that feel good to play
- Worked with game designer to identify how to improve the prototype
- Ended early because of COVID-19
